System repair guide

If for any reason you are experiencing a problem with your system, please contact us on **01925 287 008** to speak to one of our expert advisors.

Our repair process works like this; we will log the fault with our support team, who will run through diagnostics – hopefully this does the trick and you're back up and running!

*Your warranty only covers hardware issues, not software.

**If you are outside of your warranty period, we will provide a quote via email for repair. If you wish to proceed, payment can be made via a quick call. If you choose not to proceed – no problem, we'll return your laptop free of charge.
